

Preparing your Domain to transfer from Namecheap

Getting Started

Before you can transfer a domain:

- **Confirm** your administration email address in the domain registry records.
- **Disable** domain/whois privacy. If the privacy service forwards incoming email, check the 'forward to' contact email address for accuracy.
- **Verify** that the domain is unlocked.
- **Obtain** the domain's transfer authorization code (also referred to as an EPP or auth code).

Note: Registrar rules vary. Your domain may not be transferable within 60 to 120 days of registration, a previous transfer, or renewal.

Your account

- Go to: namecheap.com
- You will need your account username and password.
- If you do not have your account details, you will need to contact Namecheap. You can contact support by opening a ticket or via live chat.

Step 1: Go to namecheap.com and login to your account

The screenshot shows the Namecheap website interface. At the top, there's a navigation bar with links for Home, Register a Domain, Transfer Your Domain, Privacy Protection, FreeDNS, Web Hosting, SSL Certificates, Marketplace, and My Account. Below this is a yellow banner for domain registration, followed by a search form with two steps: 'Enter the domain name you want' and 'Choose your preferred extension(s)'. The search form includes a text input for the domain, radio buttons for extensions (com, net, org, us, biz, info, eu, me), and a 'Search' button. To the right of the search form is a 'Need Help? Try LIVE SUPPORT' button. Below the search form is an 'Affiliate' section with the text 'Earn Great Commissions' and 'Make Money by Promoting NameCheap!'. To the right of the affiliate section is a 'Transfer Domains to Namecheap' section with a price of '969 USD' and a 'Start Transfer Process!' button. Below the transfer section is an 'Our Products' section for 'RapidSSL™ 1095', with a description of the product and its price. On the right side of the page, there is a 'Login to your account' section, which is highlighted with a red circle. This section contains a 'Username' field with the value 'gistrarresearch1', a 'Password' field with masked characters, and a 'Login Now!' button. Below the login form are links for 'Password Reset' and 'Signup for a Free Account'. At the bottom of the login section is a 'Promo: Domains \$2.99 Only' banner. The bottom of the page features a 'What our customers say' section with a testimonial from Chris F. from Moonbox Design.

What our customers say

Hey guys, This is Chris F. from Moonbox Design. I just wanted to say its a small

Step 2: Click Manage Domains.

The screenshot shows the Namecheap member dashboard. At the top, the Namecheap logo is on the left, and navigation links for 'LIVE SUPPORT', 'BECOME A FAN ON FACEBOOK', 'FOLLOW US ON TWITTER', and 'FORUMS' are on the right. Below this is a blue navigation bar with links: Home, Register a Domain, Transfer Your Domain, Privacy Protection, FreeDNS, Web Hosting, SSL Certificates, Marketplace, and My Account. A secondary blue bar contains: Member Home, **Manage Domains** (highlighted with a red box), Manage Transfers, Renew/Reactivate Domains, Manage Profile, Add Funds, Withdraw Funds, and Reports. Below the navigation is a search bar with 'Domain Search: www.' and a dropdown menu set to '.com'. The main content area is titled 'Bob's Home Page' and is divided into three columns. The left column has a section 'ACCOUNT INFORMATION' with a table of account statistics and a 'QUICKLY MODIFY ONE OF YOUR DOMAIN' section with a form and a 'Modify >>' button. The middle column features a 'Special Offer' for '.tv' domains at '\$17.99 only' for the first year, with a 'FUNDS IN YOUR ACCOUNT' table below it. The right column has a 'More Links' section with various utility links. At the bottom, there are 'Last Login' and 'Last Transaction' logs, and logos for PayPal and Google Checkout.

Step 4a: If WhoisGuard is disabled, skip to **Step 4c**. If not, click **Disable WhoisGuard**. Then, under **Email Address**, check the forwarded to (Admin) email address. If the email address is incorrect, click **Change Protected Contact Information** in the **WhoisGuard – Enabled** section.

The screenshot shows the 'Modify Domain' page for 'castleanthrax.info'. The page is divided into several sections:

- General:** Includes links for 'Change Contacts', 'Transfer DNS to Webhost', 'Switch To DNS System v 1', 'Registrar Lock', 'Auto-Renew', 'List Domain For Sale', 'TypoScan', and 'Whois Business Listing'.
- E-mail Management:** Includes 'E-mail Forwarding Setup' and 'POP3 E-mail Setup'.
- Host Management:** Includes 'URL Forwarding', 'URL Frame Meta Tags', and 'All Host Records'.
- Advanced Options:** Includes 'Nameserver Registration', 'Push Domain To User', and 'Grant Modification Rights'.
- Miscellaneous:** (Partially visible)

The main content area is titled 'Modify Domain: castleanthrax.info'. It features a search bar at the top right with 'Domain Search: www.' and a dropdown menu set to '.com'. Below this, the 'WHOISGUARD - ENABLED' section is highlighted with a grey background. It contains the following text:

WhoisGuard is currently enabled for this domain.
Your personal information is protected from public access [[Disable WhoisGuard](#)]. [[Change Protected Contact Information](#)]
This subscription expires on: Friday, November 05, 2010

The 'EMAIL ADDRESS' section is also highlighted with a grey background. It displays the current WhoisGuard email: 'c6a1c2c18b4f402880c00bfd4e993e5b.protect@whoisguard.com'. Below this, it states: 'You can change the above email to something else: [Set a new random whoisguard email in whois](#)'. It then explains: 'Currently, c6a1c2c18b4f402880c00bfd4e993e5b.protect@whoisguard.com forwards to **mail@registrarresearch.info**. You can choose a different email address where the whoisguard emails are forwarded to.' A dropdown menu is shown with 'choose: mail@registrarresearch.info (Admin Email)' selected, and this dropdown is circled in red. Below the dropdown is a blue button labeled 'Change 'Forwarded To' Email'. The 'SCHEDULE AUTOMATIC EMAIL CHANGE' section is highlighted with a grey background and contains the following text:

We provide an additional option to automatically change the email shown in whois every few days. This should give additional protection from spam, as email harvested from whois will be invalid in few days. It's your choice to enable or disable this option.

To enhance privacy, automatically change WhoisGuard email every days

At the bottom of the 'SCHEDULE AUTOMATIC EMAIL CHANGE' section is a blue button labeled 'Save Preference'.

Step 4b: When you click, **Disable WhoisGuard**, you will be asked to reconfirm by selected the check box.

 **Modify Domain:** [castleanthrax.info](#)

▶ **DISABLE WHOISGUARD NOW**

Currently, the WhoisGuard email - `c6a1c2c18b4f402880c00bfd4e993e5b.protect@whoisguard.com` is being forward to **mail@registrarresearch.info**. If you disable WhoisGuard, the WhoisGuard email will be removed and any emails to that address will be rejected.

- Disable WhoisGuard protection and use the information provided below.
(You should click the 'Save Changes' button below)

Step 4c: Scroll to the contacts section on the same page. Verify and make any changes to the Registrant and Administrative Contacts.

 **Modify Domain:** [castleanthrax.info](#)

Note: Due to registry restrictions, you may not be able to change status on some TLDs (ex: biz, info). Please try again after some time if an error occurs.

Related: Planning to transfer out this domain? [Get EPP code](#) if required.

Step 8: Enter the domain name that you want to transfer and your account password, and then click **Get EPP code for my domain**. The authorization code will be emailed to your administration email address.

Get EPP Code For Your Domain(s)
Use this option to obtain EPP code for your domain if you are planning to transfer the domain to some other registrar. **Please note that the EPP will be emailed to the Registrant contact on the domain**

ENTER THE DOMAIN NAME AND YOUR ACCOUNT PASSWORD TO GET EPP CODE

Domain Names
Enter one domain in each line. Please don't enter www. in front of the domain.

castleanthrax.info

Authenticate by entering your account password.

.....

Get EPP code for my domain >>

NOTE: Enter the information above to obtain EPP code for domains that you want to transfer out of namecheap. Not all domains need EPP, but some domains like .biz, .info, .org needs the code to be transferred out. If you still have problems, please contact support.

Important: Everytime you obtain an EPP, a new code **may** be generated and emailed. So, try avoiding epp generation more than once or if you do, make sure you use the latest one.

You are now ready to transfer your domain.
